News on Kazkommertsbank

- **20 April.** Kazkommertsbank and IBM announced the launch of a new data-center, which is based on IBM Power Systems. The new computing system is the first of three remote for more than 1200 km data-centers, which will be combined into a disaster recovery solution. Creation of such information infrastructure will allow the bank to provide services to its customers around the clock in all time zones without delay in time. "The development of our own data-centers' network is a part of a coherent strategy aimed at achieving technological leadership in the banking sector of Kazakhstan - said Ms. Nina Zhussupova, CEO of Kazkommertsbank. Operating efficiency remains one of our strategic priorities, hence we chose IBM Power Systems platform that can support a substantial increase in workloads on the core banking system ensuring low costs of IT infrastructure". Implementation of this project worth US\$ 10 million will provide Kazkommertsbank with a disaster-proof energy-efficient IT infrastructure that can support further business growth, as well as use of analytical tools that require processing huge amounts of data.
- **5 April.** Kazkommertsbank was awarded a diploma of KASE "For striving for transparency" among the listed companies of the financial sector. Each year KASE awards the best listed companies, which demonstrated the best examples of business attitude on stock exchange, including disclosure of information on the company and its business activities.
